Demand Dissolution of Government Boards and Return of Property to Individuals. Memphis C. of C. Acts.

Memphis business pien are demanding

"Second—Remove all unnecessary restrictions from legitimate business,
"Third—Dissense with all unnecessary war boards and war agencies.
"Fourth—Reduce the military establishment within safe limits so that there may be a substantial reduction of war taxes and unnecessary burdens upon business; which taxation should be distributed over a period of years instead of being raised by immediate levies.

ORGANIZE EXPORT **DEPARTMENT TUESDAY**

The export department of the Southern Hardwood Traffic association, which will have charge of all phases of foreign and coastwise movements of hardwood lumber and forest products from the Southern field, will be formally launched at the meeting of the executive and advisory committees which will meet in the offices of the association. Bank of Commerce building, at 11 o'clock Tuesday morning.

Owing to the vast amount of work to be done in putting this department in shape to serve export members of this body, there will be both morning and afternoon sessions of the committee, with an intermission for lunchcon.

George C. Ehemann, Memphis, is chairman of the executive committee, while Walker L. Welford and S. M. Nickey, both of Memphis, are the other two members. There are six members of the advisory committee from Memphis, while the other six are from Louisiana. Arkansas, Mississippi, Tennessee and Northern producing states. All are expected to be present because of the agreement as a means of enabling exporters to take case of the big European demand for hardwood lumber and forest products, which is already beginning to reach lumber interests here and eisewhere throughout the valley territory.

ARKANSAS CONFERENCE TO CONVENE TUESDAY

CONWAY, Ark. Nov 18 (Spl.)—Local churchmen will seave Tuesday, or carlier, for clarkesville, where the North Arkanasa conference of the Methodist church, South, will be convened Tuesday and Wednesday. At the local church, Rev. H. E. Wheeler is completing his second year us master, but it is considered highly probable that he will be assigned elsewhere On the Conway district Rev. R. C. Morehead has successfully completed his first year as presiding elder. The affairs of the district, it is said, have been conducted in a manner highly satisfactory.

For the conference as a whole it is not expected that the enanges made by Bishop E. D. Mouzen will exceed the number usually made through observance of the four-year rule and other causes. Four presiding elders of the conference, however, are completing terms of four years in their respective charges and must be charged.

The conference at Clarkesville will occupy the new church structure recently completed by the Methodist congregation there. Rev. Henry Lynn Wade, pastor, will be host to the body.

HOST FINDS KAISER'S VISIT IS EMBARRASSING

MAARN, Holland, Nov. 18—Count Charles won Bentinck, son of Count Godard, in an interview declares that his father was unaware of the intended coming of the former German emperor until Sunday, when the Dutch government telephoned asking him if he would receive the exile. The count agreed as a duty to the Dutch government.

The former emperor's host seemed somewhat embarrassed over the delicate charge given him as his family has considerable English connections. Count Charles said that he asked the former emperor.

COTTON MARKETS

Liverpool Raises Limit and Closes at Top-Domestic Markets Are Quiet.

Monday Afternoon, Nov. 18 Nothing startling happened in the tton market today and changes were cotton market loday and changes were moderate. News over the week-end, was not such as to affect values very nuch and the recovery of quotations to hear prevailing spot prices in the belt left traders without incentive to do much. There continued but little activity in the actual and both sides appeared waiting to see what would transpire.

left traders without incentive to do much. There continued but little activity in the actual and both sides appeared waiting to see what would transpire.

In Liverpool the one-day limit was restored to 109 points, after having been reduced to 50 and kept at that amount for only two days. The full extent of the limit upward was taken at the opening, which resulted in no further trading. Just what induced the foreign market to show so much strength was left to guesswork, but it was assumed to be the fact that the foreigners are so heavily share on this side and saw danger to their position through the action taken in the interest of higher prices. It was also assumed that spinners were buying contracts against their needs of raw material in advance of purchases on this side expained some of it. Spots were marked up 20 points, good middling to 2233d, with sales 1,000 bales, including 200 American. At the opening on this side prices were moderately higher, reflecting accumulation of buying orders over the week-end, which sent prices up to a level about half a cent to the good January in New York opened at 28.25c and sold up to 28.45c. In New Orleans first prices were up even more, but there was quick reaction when a few landing alless may dipped to 27.65c, but in the southern center the break was larger. After this came more stability, for sales did not continue in volume and mome of the large spot interests bought a little on the quart. January sold back up to 28.20c, but there was little enapt to buying, and later another sinking speel was seen. Trading was very light and the allowance of some stradic business, notice to this effect having been sent out from Washington. In the spot department business was quiet, but there was absence of evidence of weakness There is nothing indicating buying for consumers yet, but their was fittle enapt to have morning of 160 points. The weak-end and the indications today being for fair and colder. The next ginning report is scheduled for Thursday, and naturally it is expected to

COTTON REVIEW

New York.—Washington permits switching between New York and New Orleans, but selling New York and buy-ing Liverpool prohibited; very few or-ders in ring at opening.—Cleve to Cotter & Turner.

New Orleans.—Weather map is clear, cold and dry. The outlook is for continued cold and dry weather. The war industries board issues a lengthy ruling on what sellers of future contracts may and may not do, the most important feature of which is that concessions are made regarding stradding and straddle sales are now pepfaitted both hetween months in the same market and between New Orleans and New York, but it is still impossible to straddle with Liverpool. It is provided, however, that if, in straddling, sales are made first, purchases must immediately follow.—Shepard & Gluck.

Montgomery, Nov. 15.—Picking is now virtually finished, perhaps 5 per cent is yet to be picked. The top crop, though of small proportions, will all be gathered since all has matured. About 85 per cent of the gins are idie, 8pot business during the last two weeks has been of a negligible character. The holders, on one hand, were not willing to meet the prices during the decline, hence little cotton was sold. They seem to be well intrenched and while some little distress cotton may have and may still come out, the nay have and may still come out, the najority are in a fairly good financial ondition to hold their crops,—Weil

Chicago.—The feeding of the people of Europe created an abnormal demand for our foodstuffs; cash grain will not be cleap while this demand lasts.—King, Farnum & Co., to Reese. King, Farnum & Co., to Reese.
Chicago.—The large corn advance is due to failure of the market to break on actual peace, liberal short covering, snahll pit pressure, big talk of European famines, and fixing of 17 cents for hogs for December and steady cash oats demand. Reports of a very heavy European flour demand stirred up locals. Many point out that the United States exports of wheat and flour will assume such large proportions during the winter there will be little room for oats and corn. The Herald contains the surprising story that the healthy abroad will be fed on corn products. The unhealthy will receive meat and wheat. Common sense indicates wheat will be dumped in Europe.—Wagner & Co.
